

Fundraising with FLORABUNDA SEEDS

Florabunda Seeds is a family owned business since 1999.

Our Guarantee: All seed is untreated and non-GMO. Our seeds are fresh and you should expect a bountiful yield, given the proper growing conditions.

Safe Seed Pledge: We pledge that we do not knowingly buy or sell genetically engineered seeds.

Our Packaging: The seed quantity in each package is very generous. The seed count is approximate as we fill by measurement. We package varieties with small seeds in glassine envelopes that are placed inside the larger paper seed envelope. Sowing instructions and hints are found on the back of the packages.

Our seeds have a long and colourful history. In planting Florabunda seeds, you play a part in not only continuing the history of heirloom seeds, but of adding to the history with your own gardening stories. Our wide variety of seeds are perfect for novice and experienced gardeners alike. With so many seeds to choose, try planting a small habitat area for observation and enjoyment.
